Summary

With over 2 years of experience developing and maintaining backend services in Java-Spring Boot and JavaScript, Node.js. Proficient in designing RESTful APIs and implementing Vue.js UI components. Possess a strong interest in working with Golang and cloud technologies to drive innovative solutions.

Skills

Programming Languages: Java, JavaScript, TypeScript, Python, Golang

Frameworks/Technologies: Spring Boot, Node.js, Express, React, Vue, HTML, CSS

Database: Mysql, Postgresql, MongoDB

Tools/Platforms: Docker, Jira, Bash, Git, GitHub, Bitbucket, Redis, RabbitMQ

Concepts: Database Design, REST API Design, Solid Principles, OOP, SDLC

Experiences

Software Engineer - Full Stack (Remote) — Bit Mascot, Bangladesh

JUN 2023 - PRESENT

- Developed and maintained backend services, designing RESTful APIs to support core functionalities. Developed 50+ RESTful APIs to support core functionalities. Helped onboard 2 teammates to new features.
- Extended and optimized existing features by refactoring legacy code and resolving backend issues to enhance system reliability and performance while consistently meeting tight deadlines.
- Improved UI components using Vue.js, delivering clean, maintainable code aligned with best practices.
- Contributed to critical features, including CSV handling, user permissions, and license management.

Projects

Autobill - [Link](#)

Groovy-Grails, Java-Spring boot, RabbitMQ, Redis, MySQL, Vue.js

Working on a subscription billing system with a rich interface, automated invoicing, renewal management, and an Integrated robust search. auto-payments, sorting, flexible payment options, and customer note tracking to improve user experience and efficiency.

Job khuji API - [Link](#)

JavaScript, Node.js, Express.js, MongoDB, JWT

Developed a job search platform where users can find jobs by location, title, or company, view listings, and apply directly. Includes personal profiles and resume uploads to streamline applications.

PFM - [Link](#)

Java, Spring-boot, MySQL, React.js

Ongoing side project: Developing a personal finance manager using Java-Spring Boot and React. Allows users to track expenses, manage budgets, and visualize financial insights for better planning.

Education

Daffodil International University, BSc in Software Engineering, CGPA: 3.82 / 4.0

- A. Secretary (Design & Development wing), Software Engineering Club
